

Comprehensive Workshop On
5S - GOOD HOUSEKEEPING TECHNIQUES

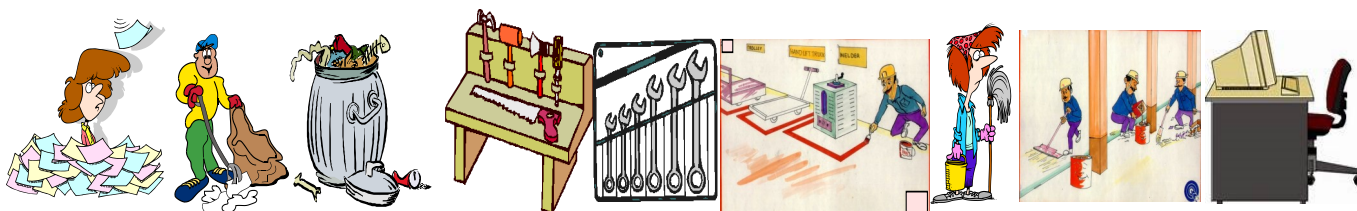

Sort Set in Order Shine Standardize Sustain

Good Housekeeping means –

“A Place for Everything and Everything in its Place”.

A company with good housekeeping practices will have a good foundation for launching various techniques for improving the productivity, quality & safety besides reducing the costs. In fact housekeeping practices reflect the management’s and employee’s general attitude towards work.

To define the 5 S in simple words, organizing the workplace i.e. keeping it neat and clean, standardising for easy maintenance and developing self-discipline among the people to sustain these activities by themselves. If we look around the place, whether it is home or our work area, we can always find lot of scope for improvement.
